

ROHIT THAKUR

Full Stack Developer (MERN)

+91 6397368237 | rt773694@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

B.Tech Computer Science student (2026) who builds and deploys full-stack web applications with React.js, Node.js, Express.js and MongoDB. Experienced in REST API design, JWT/bcrypt authentication, role-based access, cloud file storage, and real-time features using Socket.IO and WebRTC. Every project is live on Vercel or Render. Seeking an entry-level MERN Stack Developer role.

SKILLS

Frontend:	JavaScript (ES6+), React.js, Vite, HTML5, CSS3, Bootstrap, Material UI
Backend:	Node.js, Express.js, REST APIs, JWT, bcrypt, CORS, Helmet, rate limiting
Database:	MongoDB (Mongoose, Atlas), MySQL
Real-time:	Socket.IO, WebRTC
Tools & Deployment:	Git, GitHub, Postman, VS Code, Vercel, Render, Cloudinary

PROJECTS

JobTrack — Full-Stack Job Portal ([Live Demo](#) | [GitHub](#))

React.js, Vite, Node.js, Express.js, MongoDB Atlas, JWT, Cloudinary

- Built a job portal with separate job seeker and recruiter roles: recruiters post jobs, and seekers search by skills, location, salary and work mode, then apply in one click using their saved profile and resume.
- Designed a recruiter workflow to review applicants, shortlist, schedule interviews or reject, with status tracking (Applied → Shortlisted → Interview Scheduled / Rejected) so candidates always see where they stand.
- Developed a REST API with JWT authentication, role-based access control, Helmet, CORS and rate limiting; resumes and profile photos are uploaded to Cloudinary.
- Added public candidate and recruiter/company profiles, and deployed the frontend on Vercel and the API on Render with a MongoDB Atlas database.

ApnaVideoCall — Real-Time Video Calling App ([Live Demo](#) | [GitHub](#))

React.js, Material UI, Node.js, Express.js, Socket.IO, WebRTC, JWT

- Built a real-time video calling web app using WebRTC and Socket.IO, handling peer-to-peer audio/video signaling and session management.
- Implemented a responsive UI in React.js and Material UI, and secured user sessions with JWT authentication.

Personal Portfolio ([Live Demo](#))

React.js, CSS3, Vercel

- Designed and deployed a responsive personal portfolio with project showcases and a contact form for recruiter outreach.

EDUCATION

B.Tech in Computer Science — Dr. A.P.J. Abdul Kalam Technical University

2022 – 2026

SGPA: 7.2
